REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: The primary reason for allowance is that no prior art of record discloses or suggests a process for preparing lube base stock by obtaining a first fraction with a 95 % point above 1150° F and a second fraction with a 95% point below 115° F wherein the first fraction is subjected to a solvent dewaxing and the second fraction is subjected to a catalyst dewaxing process with no solvent dewaxing.

Also no prior art of record discloses or suggests a process for preparing lube base stocks having pour-cloud spreads less than 30° C wherein the process is modified to decrease the pour-cloud spreads of the dewaxed lube base stocks if the measured pour-cloud spreads exceed 30° C by adjusting the fractionation cut point, adjusting the fractionation efficiency, solvent dewaxing dewaxed lube base stocks, adsorbent treating the lube base stocks, or combinations thereof.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
